Selected Customer Comments

The cookbook is great....even my Mississippi State co-workers were impressed (so I'll be giving them copies for Christmas).

Alan Koufer, Nashville, TN

The cookbooks look terrific! I know I will enjoy mine and I'm sure that my family will love theirs. I especially like President Skorton's recipe!

A.M., San Francisco, CA

The Memphis Hawk Club Cookbook is one of the very best that I've ever had. I spent most of last night reading the little inserts on the pages and putting sticky notes on the recipes that I want to use first. All look great! I also got one for each of my sons. Your group did a fantastic job of putting this together for the enjoyment of many. It was also fun to see where people were from and, of course, the celebrity section was very interesting - especially President Skorton's and Andy Piro's input!! Kudos!

Beth G., The University of Iowa Foundation

All proceeds benefit the UI Scholarship Endowment Fund of the Memphis Iowa Club. The UI Scholarship Endowment Fund of the Memphis Iowa Club, started in 1996, supports a Memphis-area student attending the University of Iowa. The fund is managed through the UI Foundation and acquires funds raised at annual Scholarship Dinners. In 2005, our endowment fund reached the \$10,000 mark. The Memphis Iowa Club appreciates your support of this important project.

FUDGE

2 cups sugar
 ½ cup evaporated milk (5 oz.)
 10 marshmallows, cut in half
 1 stick margarine

1 (12 oz.) pkg. chocolate morsels
 ½ tsp. vanilla nuts

Bring all ingredients to a boil. Slowly boil for 6 minutes, stirring constantly. Remove from stove. Add margarine, chocolate, vanilla and nuts.

This is excellent fudge.

Phyllis Bourda, MIC
 Council Bluffs, IA

Appetizers & Beverages

An artificial blood substitute developed by Professor of Biochemistry Joseph Walder and associate research scientist Roxanne Walder underwent U.S. Army-funded clinical trials at Baxter Healthcare Corporation in 1985. The blood substitute, extracted from donated human blood and chemically altered, will potentially stretch the blood supply and reduce the risk of contracting blood-borne infection.
